Subject: AMR vendor selection and contract

I am pleased to announce that we signed the purchase and installation contract with Master Meter yesterday, one month ahead of schedule. We could not have done it without your involvement and support. The process was fair and balanced and led to the selection of the best quality AMR solution at the lowest cost to the company. This technology will improve customer service and financial performance. Thank you for your contributions to the AMR vendor selection process.

I especially want to thank Dan Christodoss, who led the process from beginning to end, Gary Rose, Ryan Quigley, Doug Conner, Ed Taussig, and David Garrett.

We installed our first new meter today!

Thanks again,

Chuck
